

Film Away

Bring floors and carpets back to life!

About this product

A neutral detergent that works on both floors and carpets to remove residue left behind from floor strippers, ice melter and hard water build-up — extending the life of your flooring. Makes your floors and carpets look like new without damaging the gloss and fibers. Its neutral pH formula is an excellent multitask cleaner that offers superior cleaning power. Film Away reduces the risk of leaving floors with an unbalanced pH that could interfere with subsequent floor finish application.

- Reduces slip and fall accidents by eliminating ice melt residue that attracts water
- Helps maintain the pristine appearance of floors
- Removes damaging ice melt residue
- Neutralize alkaline residue for flawless floor finish application
- New improved formula offers a better performance curve
- Reduced environmental impact
- Biodegradable
- Safe to use in cleaning equipment
- ECOLOGO Certified (UL 2759)
- Restores carpet softness
- Non-toxic
- pH of 7.5

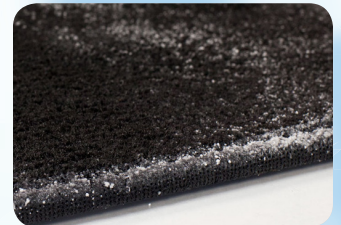

Dilution rates:

Light Cleaning	1:120
ECOLOGO (UL 2759)	1:80
Normal Cleaning	1:80
Heavy Duty Cleaning	1:40

Want to learn more about effectively removing salt stain residue?

Check out our **Managing & Preventing: Salt Stain Residue whitepaper** in the Training Centre section of our website. The document will give you a great background on why these salt stains are hard to remove and will provide you with the proper technique to tackle this task like a pro!

New & Improved Formula!
