

# ENTERPACK TRAY SEALERS

## EHQ-350

Equipment Specifications	
Lidding system	Automatic
Unwinding of film	Automatic
Cut out film	Perfectly fitted
Temperature control	Multiple electronic settings
Power supply	110V – 15A
Weight	19 kg
Maximum film width	310 mm
DIE	Not Included

- **Automatic sealing cycle**
- Hermetically seals containers and cuts the film simultaneously
- A single die-set for a variety of containers
- Productivity of +/- 400 trays per hour
- No heat applied directly to the product
- The film is in a box for maximum hygiene; compliant with Food Standards (FDA)
- Film perforation available in the cycle
- Compact equipment, easily positioned on a countertop
- Effortless to use and easy maintenance

## EHM-350
