

BEL505 SEMI-AUTOMATIC CASE FORMER/CASE ERECTOR

Wexxar Bel®

The BEL505 line of semi-automatic case forming and packing stations are a compact and ergonomic packaging solution for manual hand pack lines. When combined with a BEL case sealer, it allows one operator to form, pack and seal corrugated cases in a single operation. The BEL505 can handle a wide range of case types and sizes with many custom options. Easy to operate and easy to maintain, it's the perfect fit for low to mid volume applications searching for an entry level machine with speeds up to 15 cases per minute.

At a fraction of the cost of fully automatic case erectors, the BEL505 semi-automatic case former provides an economical and effective way of minimizing manual labor.

FEATURES

- * **Easy case size changes** – tool-less case size changes are simple and quick with change points accessible from both operational sides of the machine
- * **On machine instructions** – user-friendly pictorial guides and color coded labeling for convenient operation and size changes
- * **Dynamic flap-folding system** – actively folds all bottom flaps
- * Formed cases are positioned on a roller deck for easy loading and transfer to case sealer
- * Positive mechanical case hold-down keeps box in place for hands-free loading
- * Designed and built in North America with premium materials

SPECIFICATIONS

- * Speed: up to 15 cases per minute
- * Corrosion resistant and paint free frame construction
