

## BEL505G3 SEMI-AUTOMATIC CASE FORMER/CASE ERECTOR

Wexxar Bel®

 WEXXAR BEL

The BEL505G3 is a multi-station, semi-automatic case former/case erector and pack station. Optimizing floor space in lines limited by resources, the BEL505G3 multi-station semi-automatic case former is ideal improving ergonomics and case packing efficiency on manual case forming operations with speeds of up to 15 cases per minute.

The new generation BEL505G3 case erecting machine embodies all the well-known ergonomic innovations of its predecessor, the BEL505, but is now a case forming pack station with multiple packing positions. The BEL505G3 multi-station case erector provides flexibility to pack from the rear end of the case as well as both sides. It also features an expanded standard case width range, and easy adjustments. Inserting a case blank into the BEL505 case former results in automatic folding of all four bottom flaps and the case held ready for packing.

### FEATURES

- \* **Flexibility** – multiple packing positions provide flexibility to pack from the rear end of the case as well as both sides
- \* **Easy case size changes** – case size changes are simple and quick
- \* **Wider cases** – Expanded standard case width range
- \* Connects to any BEL case sealer, enabling one person to form, pack and seal corrugated cases in a single operation
- \* Improves safety by eliminating costly repetitive strain injury problems
- \* Modular design allows for a customized BEL system delivered to you at an off-the-shelf lead time and price

### SPECIFICATIONS

- \* Speed: up to 15 cases per minute
- \* Corrosion resistant and paint free frame construction
- \* Machine Dimensions: 32.5" (L) x 21" (I) x 23.5" (H)

### OPTIONS

- \* Adjustable KDF box stand
- \* Rotary product accumulation turntable
- \* Locking caster wheels
- \* Infeed and outfeed conveyors
- \* Spare parts kits
- \* Stainless steel construction
