

# BEL5150 SEMI-AUTOMATIC FORM, PACK AND SEAL UNITIZED MACHINE

Wexxar Bel®

The BEL5150 allows a single operator to load cases with products and seal all flaps on one machine. Your packaging systems will be able to efficiently and effectively meet all of your production needs. When you need quality machinery for your production lines, the BEL5150 is the perfect solution.

The semi-automatic form pack and seal unitized machine includes an electro-pneumatic system which provides greater control over the forming of corrugate with higher recycled content. Don't take a chance with damaged products. With speeds up to 15 cases per minute, the BEL5150 is quick and effective for a durable and dependable form pack and seal experience. The BEL5150 features a built-in box stand, a rust free and paint free frame construction, and a centralized color-coded adjustment guide.

## FEATURES

- \* **Power save mode** automatically powers down the machine when not in use
- \* **Centralized, colour-coded setup guides** make case changeovers quick and easy
- \* **Uni-Drive belt system** eliminates case skew and ensures cases are squarely taped
- \* DEKKA high performance stainless steel tape heads
- \* Electro-pneumatic precision flap folding
- \* Built-in box stand for quick and ergonomic operation
- \* Unitized frame design provides ease of mobility and greater machine life
- \* Designed and built in North America with premium materials

## SPECIFICATIONS

- \* Speed: up to 15 cases per minute
- \* Corrosion resistant and paint free frame construction
- \* Machine dimensions: 73" (L) x 33" (W) x 60" (H)

## OPTIONS

- \* DEKKA stainless steel tape head
- \* Rotary product accumulation turntable
- \* Locking caster wheels
- \* Outfeed conveyor
- \* Spare parts kits
