

AQUEOUS BASED ACRYLIC ADHESIVE BOPP BOX SEALING TAPE

DESCRIPTION

This tape is made of polypropylene film coated with aqueous acrylic adhesive. Resistant to UV and perform under a wide temperature range. Excellent tear and impact resistance. This tape ages well and will not discolor.

MAIN FEATURES

- Resistance to UV, moisture, cold and weathering.
- Good initial tack, long term adhesion.
- Perform under wide temperature range.
- Clarity: tape stays clear and won't yellow.
- Good strength and impact resistance.

APPLICATIONS

- Packaging, holding and bundling applications where moisture resistance is required.
- Performs well in cold environment (meat, food processing and dairy plants).
- Label protection, surface lamination.
- Single strip closure of regular slotted containers (RSC's) dispensed by hand held box sealer.
- Repair tears in boxes, bags, etc., while in transit or storage.

TECHNICAL DATA

Colour	Clear (00)
Backing	Bi-axially Oriented Polypropylene Film
Adhesive	Aqueous Based Acrylic Adhesive
Thickness	1.8 mil
Adhesion to steel	20 oz / in
Tensile strength	20 lb / in
Elongation	160%
Application Temperature	7°C (45°F) to 40°C (104°F)
Temperature Resistance	-30°C (-22°F) to 54°C (130°F)

STOCK SIZE

- 48mm x 100m — 36 rolls/case
- 48mm x 132m — 48 rolls/case
- 72mm x 100m — 24 rolls/case

Please note:

Values quoted are averages only and may vary within industry tolerances. The final user must assure product suitability for the application and assumes all risks and liabilities.

WILL NOT DISCOLOUR
PERFORMING ADHESIVE

Maximum performance with dispenser 841-00
